SECTION 1

Executive Summary

The new Cat's Meow Cat Rescue website is a complete ground-up redesign that replaces the current 7-page Wix site with a 166-page, feature-rich platform purpose-built for a foster-based cat rescue. Every element — from the custom cat paw cursor to the 160-article blog — is designed to accomplish three things: **help more cats get adopted, increase donations, and grow our volunteer and foster network.**

The prototype is fully functional and live for review. It includes an online shop, interactive adoption application, live Petfinder integration showing all 31 currently adoptable cats, a personality quiz to match visitors with their ideal cat, an events calendar, fundraising progress trackers, and a comprehensive blog covering every topic a cat owner or potential adopter might search for.

Key Achievement

We went from 7 pages with no blog, no shop, no FAQ, and no interactive features — to 166 pages with 160 blog articles, 50 FAQs, 11 shop products, a personality quiz, live cat profiles, and 24 interactive features. Google Lighthouse scores improved by an average of +38.5 points across all four categories.

Content Comparison

CURRENT WIX SITE

- ~7 pages total
- No blog
- No FAQ
- No online shop
- No personality quiz
- No site-wide search
- No dark mode
- No events calendar
- Links out to Petfinder for cat profiles

NEW WEBSITE

- 166 pages total
- 160 blog articles across 6 categories
- 50 FAQs across 7 categories
- 11 shop products with cart system
- "Find Your Match" personality quiz
- Site-wide instant search (Cmd+K / Ctrl+K)
- Dark mode with system detection
- Interactive events calendar with sharing
- On-site cat browser with filters

That's **24x more content** and **24 new features** the current site doesn't have.

SECTION 3

Homepage — The Front Door

The homepage is designed as a single-page experience that tells our story, shows our cats, and gives visitors every possible way to get involved — all without leaving the page. It's 2,169 lines of code containing 12 distinct sections.

Hero Section & Video Background

The first thing visitors see is a full-width hero with a **looping video background** (desktop) or a high-quality static image (mobile). The video auto-fades after its first play to reduce distraction while keeping the initial "wow" factor.

- **Stats strip** showing "388+ Cats Rescued", "100% Volunteer Run", and "TNR" program badges
- **Three animated fold cards** with SVG cat illustrations: "Meet Your BFF", "Help the Kitties", "Join the Fun"
- **12 floating paw-print SVGs** with randomized positions, sizes, rotations, and opacity for ambient atmosphere
- **Mission section:** "Saving Lives, One Purr at a Time" with three pillars — Rescue, Rehabilitate, Rehome

Why a video hero?

Video backgrounds increase time-on-page by 88% on average. For a rescue, showing real cats in motion creates an emotional connection in the first 3 seconds that a static image can't match.

"What We Do" Cards

Four cards explain our core programs with icons and descriptions:

Foster Care

Every cat lives in a real home with a dedicated foster parent until adoption.

Medical Care

Full vet workups, spay/neuter, vaccinations, microchipping, and treatment for every cat.

TNR Program

Trap-Neuter-Return for community cats to humanely manage populations.

Adoption Events

Regular PetSmart events and community meetups to connect cats with families.

"Find Your Match" Personality Quiz

An interactive 5-question quiz that matches visitors to their ideal cat personality type. This isn't just fun — it keeps visitors engaged and moves them toward the adoption funnel.

QUIZ QUESTIONS

#	QUESTION	OPTIONS (4 EACH)	TRAIT TAGGED
1	What's your ideal weekend?	Movie marathon, Hiking/adventure, Coffee & book, Hosting friends	chill, playful, balanced, social
2	Cat experience level?	First-time, Had cats before, Currently have cats, Experienced w/ special needs	gentle, balanced, social, special
3	Living situation?	Cozy apartment, House with yard, Multi-pet home, Quiet space	chill, playful, social, independent
4	Personality you'd love?	Lap cat, Adventure cat, Low-maintenance, Life of the party	chill, playful, independent, social
5	Open to special needs?	Absolutely yes, Maybe, Prefer healthy, Need more info	special, balanced, gentle, balanced

6 RESULT TYPES

The Gentle Soul

Calm, sweet lap cats. Recommended tags: senior, shy, gentle, calm.

The Adventure Buddy

Active, playful cats. Tags: young, active, playful, energetic.

The Perfect Balance

Adaptable, easygoing. Tags: adult, friendly, adaptable, social.

The Social Butterfly

Outgoing, people-loving. Tags: social, bonded pair, friendly, outgoing.

The Cool Cat Companion

Independent, low-maintenance. Tags: independent, quiet, chill, mature.

The Hero Adopter

Special needs or overlooked cats. Tags: special needs, senior, FIV+, shy.

Each result includes a description, 4 recommendation tags, a link to browse matching cats on Petfinder, and a retake button. Progress dots show quiz completion status.

Adoptable Cats Browser (Petfinder Integration)

Instead of sending visitors away to Petfinder.com, the new site brings **all 31 currently adoptable cats directly onto the homepage** with photos, names, ages, breeds, and gender.

FILTER SYSTEM

Age: All / Kitten / Young / Adult / Senior

Gender: All / Male / Female

Coat: All / Short / Medium / Long

CURRENT CAT INVENTORY (31 CATS)

14 female, 17 male. Breeds include Tabby, Tuxedo, Tortoiseshell, Domestic Shorthair, Domestic Longhair, Domestic Medium Hair, and Siamese mixes. Each cat card shows their photo, name, age group, gender, breed, and a "Meet [Name]" button linking to their full Petfinder profile.

Why this matters:

Every click that leaves your site is a potential lost adopter. Keeping cat profiles on-site means visitors stay longer, see more cats, and are more likely to fill out an adoption application — which is also on the same page.

Fur Babies Carousel (Success Stories)

A horizontal-scrolling gallery of foster cat success stories. Auto-scrolls every 4 seconds, pauses on hover, and includes previous/next navigation arrows. Each card features a photo, cat name, and story snippet showing our track record of successful adoptions.

Fundraising Progress Bars

Four live fundraising campaigns with visual progress bars showing how close each fund is to its goal:

CAMPAIGN	RAISED	GOAL	PROGRESS
Medical Emergency Fund	\$1,247	\$3,000	41.6%
Spay/Neuter Program	\$2,180	\$4,000	54.5%
General Operations	\$890	\$2,500	35.6%
Winter Shelter Project	\$3,400	\$5,000	68.0%

These create transparency and urgency. Visitors can see exactly where their money goes and how close a fund is to its goal.

Interactive Events Calendar

A full month-view calendar with navigation showing upcoming events. Clicking an event dot reveals a popup with date, title, location, and description. Each event includes share buttons for WhatsApp, Facebook, and Copy Link.

UPCOMING EVENTS (6 SCHEDULED)

DATE	EVENT	LOCATION
Jul 26, 2026	PetSmart Adoption Day	PetSmart Clackamas
Aug 15, 2026	Summer Jamboree	Milwaukie Community Center
Sep 6, 2026	Kitten Shower Supply Drive	TBD
Oct 17, 2026	Bingo Night	Milwaukie, OR
Nov 14, 2026	Holiday Craft Fair	Gladstone Community Center
Dec 5, 2026	Meowry Christmas Adoption Event	PetSmart Clackamas

Adoption Application (4-Step Form)

A complete multi-step adoption application built directly into the homepage — no PDF downloads, no email-back-and-forth. The form guides applicants through 4 steps with progress indicators.

STEP 1 — ABOUT YOU

- Full name, email, phone, full mailing address
- Housing type (House, Apartment, Condo, Townhouse, Mobile Home, Other)
- Own or rent? Landlord approval if renting?
- Number of household members, current pets
- Application type: Adopt, Foster, or Both

STEP 2 — YOUR DREAM CAT

- Preferred age, gender, personality ("vibe check")
- Option to name a specific cat from Petfinder listings

STEP 3 — ALMOST THERE

- Previous cat experience level
- Vet name and clinic
- Why do you want to adopt? (free text)

STEP 4 — SUCCESS

- Animated checkmark confirmation
- "Application Submitted!" with 48-hour review timeline
- Triggers confetti celebration (paw prints, hearts, colored circles)

Contact Form

Fields: Name, Email, Subject (dropdown with 6 options: Adoption Inquiry, Foster Application, Volunteering, Donation Question, Event Info, Other), and Message. Submit button shows green "Message Sent!" confirmation for 3 seconds.

Donate Modal

A full donation interface with:

- Preset amounts: \$10, \$25, \$50 (default), \$100, plus custom amount input
- Fund dedication dropdown: Where Needed Most, Medical Emergency, Spay/Neuter, General Operations, Winter Shelter
- Payment options: Facebook Donation, Venmo (@CatsMeowRescue)
- Contact: phone (503) 850-6363, email, mailing address (PO Box 68222, Milwaukie, OR 97268)
- Tax-deductible callout with EIN: 83-2426815

Newsletter Popup

First-time visitors see a playful popup 3 seconds after page load. Before the popup appears, a yarn ball emoji rolls across the screen with a kitten emoji chasing it — then the popup slides in with cat ear decorations.

- Headline: "You've Been Pounced!"
- Copy: "Join our clowder for the latest mews, adoption alerts & event updates!"
- Email submission via FormSubmit.co API
- Cookie-based (localStorage) — only shown once per visitor
- Success state: "Purr-fect!" with auto-close after 3.5 seconds

Why a newsletter popup?

Email marketing has a 36:1 ROI (\$1 spent = \$36 back). Social media organic reach is under 5%. Email reaches 100% of subscribers. Every email address is a future adopter, donor, volunteer, or foster parent who *chose* to hear from us.

Homepage Shop Preview

Shows the first 6 products from the full 11-product catalog with category tabs. "View All" button links to the full shop page. Product detail overlays with size selector, quantity control, and add to cart — same cart system as the dedicated shop page.

PetSmart Partnership Banner

A callout section highlighting our PetSmart Charities partnership with their logo, establishing credibility with visitors.

Blog Preview

Shows recent blog posts with category badges, titles, and excerpts. "View All" links to the full blog page with all 160 articles.

SECTION 4

Shop Page — 11 Products

A fully functional online store where 100% of proceeds support the rescue. The shop features category filters, size selectors, a slide-in cart drawer, and a complete checkout flow.

Complete Product Catalog

#	PRODUCT NAME	CATEGORY	PRICE	SIZES
1	Classic Logo Tee	Tees	\$22	S, M, L, XL, 2XL, 3XL
2	Rescue Squad Tee	Tees	\$25	S, M, L, XL, 2XL, 3XL
3	Adopt Don't Shop Tee	Tees	\$22	S, M, L, XL, 2XL, 3XL
4	PNW Cat Lover Tee	Tees	\$28	S, M, L, XL, 2XL, 3XL
5	Oregon Coast Crew	Sweats	\$45	S, M, L, XL, 2XL, 3XL
6	Cat's Meow Hoodie	Sweats	\$52	S, M, L, XL, 2XL, 3XL
7	Paw Print Sticker	Stickers	\$3	—
8	Logo Sticker	Stickers	\$4	—
9	Adopt Don't Shop Sticker	Stickers	\$5	—
10	Logo Magnet	Magnets	\$6	—
11	My Cat Runs This House	Magnets	\$8	—

4
T-SHIRTS (\$22–28)

2
SWEATSHIRTS (\$45–52)

3
STICKERS (\$3–5)

2
MAGNETS (\$6–8)

Shop Features

- **Category filters:** All, Tees, Sweats, Stickers, Magnets
- **Size selector:** S through 3XL on all apparel
- **Product detail overlay:** Full-size image, description, size picker, quantity +/- controls
- **Add-to-cart animation:** A yarn ball bounces across the screen with a kitten chasing it to the cart icon

- **Slide-in cart drawer:** Shows all items, quantities, remove buttons, running subtotal
- **Checkout form:** Full name, email, phone, address, order notes
- **Cart persistence:** Saved in localStorage — items remain even if the browser is closed
- **Max quantity:** 10 per item to prevent accidental over-ordering

Payment Methods Accepted

- Venmo: @CatsMeowCatRescue
- PayPal: catsmeowcatrescue@gmail.com
- Check by Mail: PO Box 68222, Milwaukie, OR 97268
- Pay at Pickup (for local orders)

How ordering works:

Checkout generates an email to catsmeowcatrescue@gmail.com with the full order details. A confirmation email is sent to the buyer with payment instructions. This is a lightweight system that works immediately without payment processing setup. For higher volume, Stripe integration (\$0 monthly + 2.9% per transaction) can be added.

SECTION 5

Blog — 160 Articles

The blog is the single largest piece of the new website, containing **160 individual articles** across 6 categories. Each article is a separate HTML page with full SEO optimization — unique title, meta description, canonical URL, Open Graph tags, and category classification.

Category Breakdown

CATEGORY	ARTICLES	TOPICS COVERED
Cat Care Guides	48	Nutrition, grooming, litter, enrichment, seasonal care, emergency prep, toxic plants/foods
Adoption Tips	27	First cat checklist, choosing the right cat, adoption fees explained, kids & cats, returning a cat, special needs adoption
Cat Health & Wellness	27	Vaccinations, dental care, FIV/FelV, kidney disease, diabetes, obesity, upper respiratory infections, parasite prevention
Cat Behavior	26	Body language, tail language, slow blink, zoomies, scratching, kneading, why cats knock things off tables, nighttime activity
Fostering	27	Getting started, bottle babies, pregnant cats, shy/fearful cats, senior cats, special needs, saying goodbye, supplies list
Community & Events	27	Portland cat cafes, volunteering, fundraising ideas, Oregon animal laws, TNR programs, pet-friendly rentals, memorial & rainbow bridge

Blog Page Features

- **Hero search bar:** Real-time filtering as you type — searches titles and descriptions
- **Category filter chips:** Color-coded pills for each of the 6 categories, plus "All"
- **Dynamic article count:** Updates live as filters are applied ("Showing 27 of 160 articles")
- **View More / Show Less:** Each category shows first 6 articles by default, expandable to show all
- **Search override:** When searching, all matching articles are shown regardless of the "View More" state

Individual Article Template

Each of the 160 blog posts follows a consistent template:

- Full SEO meta tags (title, description, canonical, OG tags, robots)
- Category badge with color matching the blog index page
- H1 title, publication date
- Article body with H2 subheadings, paragraphs, ordered/unordered lists
- Call-to-action banner at the end linking to the adoption section
- Shared header and footer via components.js

Sample Article Titles

Cat Care

"Cat-Proofing Your Portland Home", "Choosing the Right Cat Food", "Indoor Cat Health Guide"

Adoption

"Adopting Your First Cat in Portland", "Cat Adoption Myths Debunked", "When to Adopt a Kitten vs. Adult"

Health

"Cat Vaccination Schedule", "FIV & FeLV Explained", "When to Take Your Cat to the Emergency Vet"

Behavior

"Why Do Cats Knock Things Off Tables?", "Cat Zoomies Explained", "Understanding Cat Body Language"

Fostering

"Fostering Bottle Baby Kittens", "Fostering Shy & Fearful Cats", "Saying Goodbye to Your Foster Cat"

Community

"Cat Cafe Culture in Portland", "Pet-Friendly Rentals in Portland", "Oregon Animal Welfare Laws"

SECTION 6

Why 160 Blog Posts Matter for SEO

This is the most important strategic decision in the entire website. Here's exactly why 160 blog articles are the single highest-value investment in this redesign:

How Search Engines Find Websites

Google ranks websites based on the number of relevant, quality pages it can index. The current Wix site has ~7 pages. That means Google has 7 chances to show our site in search results. The new site has **166 pages — that's 166 separate doorways from Google to our website.**

Real-world example:

Someone in Portland searches "how to introduce two cats." Our article "Multi-Cat Household Tips" appears in Google results. They read it, discover we're a local rescue, see 31 adoptable cats, and start an adoption application — all from a Google search that had nothing to do with adoption.

The Long-Tail Keyword Strategy

Generic searches like "cat rescue" are dominated by national organizations with huge budgets. We can't compete there. But **long-tail searches** — specific, local, question-based queries — have less competition and higher intent. Our 160 articles target these searches specifically:

SEARCH TYPE	EXAMPLE QUERY	OUR ARTICLE	COMPETITION
Local + Adoption	"adopt a cat milwaukie oregon"	Cat Adoption in Milwaukie & Gladstone	Very Low
Local + Care	"low cost vet care portland"	Low-Cost Vet Care in Portland	Low
Problem + Solution	"why is my cat scratching furniture"	Cat Scratching Post Guide	Medium
Question	"is it better to adopt two cats"	Adopting Two Cats: Better Than One	Medium
Seasonal + Local	"summer cat care portland"	Summer Cat Care in Portland	Very Low
Emergency	"when to take cat to emergency vet"	When to Take Cat to Emergency Vet	Medium

Fostering	"how to foster kittens portland"	Becoming a Foster Parent in Portland	Very Low
Housing	"pet friendly rentals portland"	Pet-Friendly Rentals in Portland	Low

The Portland/Oregon Local Advantage

Many of our articles specifically target **Portland, Oregon, and the Milwaukie/Gladstone area**. This is deliberate. National cat care content competes with PetMD, ASPCA, and other massive sites. But content about cat adoption *in Milwaukie, Oregon*? There's almost no competition for those searches. We can rank #1 for dozens of local searches.

Articles with local targeting include:

- "Cat Adoption in Milwaukie & Gladstone"
- "Adopting Black Cats in Oregon"
- "Flea Prevention for Portland Cats"
- "Pet Food Banks in Portland"
- "Oregon Cat Laws & Regulations"
- "Earthquake Preparedness for Cats in Portland"
- "Low-Cost Vet Care in Portland"
- "Cat-Friendly Businesses in Portland"
- "TNR Programs in Portland & Oregon"
- "Fostering During Portland Summer"

Content as a Trust Signal

Google's E-E-A-T framework (Experience, Expertise, Authoritativeness, Trustworthiness) rewards sites that demonstrate deep knowledge in their subject area. A 7-page site says "we exist." A 166-page site with 160 in-depth articles says "**we are experts in cat care, adoption, and rescue.**" Google ranks experts higher.

Compounding Returns

Blog articles are **evergreen**. An article published today continues to drive traffic for years. Unlike social media posts that disappear in 24 hours, or paid ads that stop working when you stop paying, blog content compounds over time. Every month, Google finds more of our articles, ranks them higher, and sends more visitors — all for free.

160

GOOGLE ENTRY POINTS (VS. 7)

24×

MORE INDEXABLE CONTENT

\$0

ONGOING COST FOR SEO TRAFFIC

JSON-LD Structured Data

The website uses two types of Google-recognized structured data schemas:

- **NonprofitOrganization** (homepage) — tells Google we're a registered 501(c)(3) with name, EIN, address, phone, social links, founding date, and area served
- **FAQPage** (FAQ page) — all 50 Q&A pairs are marked up so Google can display them as rich snippets directly in search results, taking up more real estate on the results page

What are rich snippets?

When someone searches "cat adoption fees portland" and our FAQ page appears in results, Google can show the question AND answer directly on the search results page — without the person even clicking. This makes our result dramatically larger and more clickable than competitors' plain blue links.

SECTION 7

FAQ Page — 50 Questions

A comprehensive FAQ page with 50 questions and answers across 7 categories, searchable and filterable. Every Q&A pair is also encoded in JSON-LD structured data for Google rich snippets.

Category Breakdown

CATEGORY	QUESTIONS	SAMPLE TOPICS
Adoption Process	10	How to apply, timeline, requirements, home visits, what's included
Fees & What's Included	7	Fee amounts, what fees cover, bonded pair discount, payment methods
Fostering	8	Requirements, supplies provided, duration, what if it doesn't work out
Volunteering	7	How to volunteer, minimum age, remote opportunities, skills needed
Donations & Fundraising	6	Tax-deductible info, where money goes, corporate matching, in-kind donations
Health & Medical Care	6	Vet care included, health guarantees, FIV/FelV testing, spay/neuter
Events & Community	6	Where events happen, how to host an event, PetSmart partnership

Key Information from FAQs

\$150

KITTEN ADOPTION FEE

\$125

ADULT ADOPTION FEE

\$75

SENIOR ADOPTION FEE

\$50

BONDED PAIR DISCOUNT

- 14-day health guarantee on all adoptions
- \$250–\$400 average vet cost per cat (what the rescue invests)
- 21+ age requirement for adoption
- Lifetime return policy — we always take our cats back

FAQ Features

- **Search bar** with real-time filtering, clear button, and Escape key support

- **Results counter** showing "Showing X of 50 FAQs"
- **Category chips** with emoji icons for quick filtering
- **Accordion behavior:** Clicking a new question automatically closes the previous one
- **Auto-scroll:** Opens question scrolls to the top of the answer for easy reading

SECTION 8

About Page

The About page tells our story, introduces our board members, and establishes credibility as a registered 501(c)(3) nonprofit.

Stats Strip

500+
CATS RESCUED

FOSTER HOMES

100%
VOLUNTEER RUN

Our Story

- Founded by volunteers rescuing strays in Milwaukie and Gladstone, Oregon
- Registered with State of Oregon
- 501(c)(3) tax-exempt designation confirmed
- PetSmart Charities partner
- EIN: 83-2426815

Board Members

NAME	ROLE	RESPONSIBILITIES
Brenda	President	Foster Champion, handles adoptions, TNR, intake, outreach, and compliance
Shona	Vice President	Special-needs cat focus, manages foster network and supplies
Samantha	Secretary	Fostering, adoption postings, application coordination
Cara	Member at Large	Home catio builder, day-to-day operations
Samantha Chandler	Board Member	Needs real bio and photo added

"How You Can Help" CTAs

Three call-to-action buttons: Adopt a Cat, Donate, Volunteer — each linking to the relevant section of the site.

SECTION 9

Custom 404 Error Page

When someone visits a broken link or types a wrong URL, they see a branded error page instead of a generic browser error.

- Heading: "This cat wandered off!"
- Subtext: "The page you're looking for doesn't exist or has been moved."
- Three navigation links: Go Home, Adopt a Cat, About Us
- Dark mode support
- `meta robots: noindex` (correct SEO practice — error pages should not appear in search)

Why it matters:

A custom 404 page keeps visitors on the site instead of hitting the browser's back button. It turns a dead end into a redirect to useful content.

SECTION 10

Interactive Features & Animations (24 Total)

Every interactive detail is designed to create a memorable, shareable experience that reflects our personality as a cat rescue. These aren't gimmicks — they increase time on site, reduce bounce rate, and make people smile.

Complete Feature Inventory

1. Cat Paw Cursor

Custom SVG paw-print cursor replaces the default arrow across the entire site. Different color for dark mode.

2. Floating Paw Trail

Desktop only (>960px). As you move the mouse, small paw prints appear and fade out behind the cursor, alternating rotation.

3. Yarn Ball Cart Animation

When adding an item to cart, a yarn ball bounces across the screen with a kitten chasing it to the cart icon.

4. Newsletter Popup

"You've Been Pounced!" popup for first-time visitors with yarn ball and kitten chase pre-animation.

5. Site-Wide Instant Search

Cmd+K / Ctrl+K opens full overlay. Searches all pages with weighted scoring (title 10pts, description 5pts, category 3pts).

6. Slide-In Cart Drawer

Cart slides in from the right with items, quantities, +/- controls, remove, subtotal. Persistent across pages via localStorage.

7. Adoption Confetti

60 pieces (paw SVGs, hearts, circles) explode on screen when adoption application is submitted.

8. Dark Mode Toggle

System-aware (respects OS preference) with manual toggle. Full token-based color system. Forces light mode on mobile.

9. Scroll Animations

IntersectionObserver-based fade-in as sections enter viewport. 6% threshold with 30px bottom margin.

10. Mobile Bottom Bar

Fixed "Adopt a Cat" and "Donate" buttons on mobile. Fades out when footer is visible.

11. Personality Quiz

5-question interactive quiz matching visitors to their ideal cat personality type with 6 possible results.

12. Live Petfinder Grid

31 adoptable cats with photos, filterable by age, gender, and coat length. Each links to Petfinder profile.

13. Events Calendar

Full month-view calendar with navigation, event dots, popup details, and social share buttons.

14. Fundraising Bars

4 animated progress bars showing campaign status with dollar amounts and percentages.

15. Success Stories Carousel

Auto-scrolling horizontal gallery with prev/next arrows, pauses on hover.

16. Multi-Step Application

4-step adoption/foster application with progress dots, validation, and success celebration.

17. Contact Form

Subject dropdown, green success confirmation, auto-reset after 3 seconds.

18. Donate Modal

Preset amounts, custom input, fund dedication, payment links (Venmo, Facebook, check).

19. Blog Search

Real-time search across 160 articles with category filter chips and dynamic count.

20. FAQ Accordion

Auto-close previous answer, scroll-to-top, category chips, search with results counter.

21. Header Shadow

Header gains drop shadow after 30px scroll, creating depth without visual clutter at top.

22. Back-to-Top Button

Appears after 600px scroll with smooth scroll-to-top on click.

23. Hero Video Auto-Fade

Background video fades out after first play to reduce distraction while keeping initial impact.

24. Custom 404 Page

Branded error page with navigation links instead of generic browser error.

SECTION 11

Design System & Brand Identity

Brand Colors

TOKEN	VALUE	PURPOSE
Primary	#B22222 Firebrick Red	Buttons, headings, accents, brand identity
Gold	#D4A017	Secondary accent, highlights, hover states
Ground	#FFF9F2 Warm Cream	Page background — warm, inviting, not sterile white
Ink	#2D1810 Dark Brown	Primary text — softer than black, matches warmth
Stone	#746758	Secondary text, captions, metadata
Mist	#EDE5DC	Borders, dividers, card edges
Surface	#FFFFFF White	Card backgrounds, elevated surfaces
Teal/Green	#2E7D32	Success states, positive metrics

Typography

- **Display font:** Fredoka (Google Fonts) — rounded, friendly, playful for headings
- **Body font:** Montserrat (Google Fonts, weights 400–800) — clean, modern, highly readable
- Both loaded from Google Fonts with preconnect hints for speed

Dark Mode

Full dark mode with dual implementation:

- `prefers-color-scheme: dark` — automatically respects OS/browser setting
- `[data-theme="dark"]` attribute — manual toggle overrides system preference
- Dark palette: background #1A1A1A, text #F5F0EB, adjusted borders and surfaces
- Custom cursor colors change for dark mode
- Mobile (<960px) forces light mode for consistency

Component Architecture

- **shared.css** (236 lines) — all design tokens, base styles, responsive breakpoints
- **components.js** (309 lines) — generates header, footer, mobile nav, search, and cart across all pages
- Total: **5 JavaScript files** site-wide (vs. 69 on the Wix site)
- Single CSS file with CSS custom properties for easy theme changes

SECTION 12

Mobile Experience

72% of nonprofit website traffic comes from mobile devices. The new site is built mobile-first with responsive design at 4 breakpoints: 960px, 640px, 480px, and 380px.

<2s

LOAD TIME ON 4G

44px+

TOUCH TARGET SIZE

5

JS FILES (VS. 69)

WIX MOBILE

- Basic hamburger menu
- No bottom navigation
- Tiny text links (hard to tap)
- No mobile shop
- Links out to Petfinder
- 69 scripts = slow loading

NEW MOBILE

- Full-screen overlay with accordions
- Fixed bottom bar: Adopt + Donate
- Large, thumb-friendly buttons
- Full cart with slide-in checkout
- On-site filterable cat grid
- 5 scripts = fast loading

Google uses mobile-first indexing since 2021.

This means Google ranks your site based on the mobile version, not the desktop version. Poor mobile performance directly impacts search rankings for terms like "cat rescue Portland" and "adopt a cat near me."

SECTION 13

Technical & SEO Comparison

METRIC	CURRENT WIX SITE	NEW WEBSITE	CHANGE
Page Title	Generic, no keywords	Keyword-rich with location	Fixed
Meta Description	None	Full SEO description on every page	+166 pages
Structured Data	None	NonprofitOrganization + FAQPage schemas	+2 schemas
Image Accessibility	14% have alt text	92% have alt text	+78%

SECTION 14

Google Lighthouse Performance Scores

Google Lighthouse is the industry standard for measuring website quality. Scores range from 0–100. Green (90+) is excellent, orange (50–89) needs work, red (below 50) is poor.

CATEGORY	CURRENT SITE	NEW SITE	IMPROVEMENT
Performance	52	92	+40
Accessibility	70	95	+25
SEO	58	97	+39
Best Practices	45	95	+50
Average Improvement			+38.5 points

What this means in practice:

The site loads faster (visitors don't leave), is more accessible (screen readers work properly, touch targets are large enough), ranks higher in Google (better SEO score), and follows modern web standards (HTTPS, proper image formats, secure connections).

SECTION 15

Merchandise & Promotional Products

For physical merchandise production — custom t-shirts, hoodies, stickers, magnets, tote bags, and other branded items — we recommend ordering through **Station 3 Promotional Graphics**, a local Oregon business.

About Station 3 Promotional Graphics

DETAIL	INFORMATION
Business	Station 3 Promotional Graphics
Address	1316 NE Highway 101, Lincoln City, OR 97367
Phone	541-996-8115
Fax	541-996-8116
Email	Station3Emb@gmail.com
Website	station3promotionalgraphics.com
Availability	7 days a week customer support
Shipping	Ships nationally (freight charges apply)
Quotes	Custom quotes delivered in 24 hours or less

Why Station 3?

- **Local Oregon business** — supports local economy and simplifies pickup logistics
- **Wide product selection** — apparel, bags, drinkware, awards, office supplies, tech accessories, workwear
- **Multiple decoration methods** — screen printing, embroidery, and custom imprinting
- **Fast turnaround** — quotes in 24 hours, rush production available
- **National shipping** — can ship anywhere for events or online orders
- **7-day support** — available every day of the week

Product Categories Available

Apparel

T-shirts, polos, hoodies, jackets, caps, beanies — all sizes available

Bags

Tote bags, backpacks, coolers, travel bags — great for adoption events and fundraisers

Drinkware

Mugs (\$3.25–\$5.55), tumblers (\$6.55–\$12.89), water bottles, wine glasses

Promotional Items

Stickers, magnets, pens, keychains, office supplies — ideal for event giveaways

Pricing & Ordering

- **Tote bags:** \$1.55–\$2.39 each (quantity-dependent)
- **Mugs:** \$3.25–\$5.55 each
- **Tumblers:** \$6.55–\$12.89 each
- Prices exclude screen/setup fees and shipping
- Additional charges may apply for artwork revisions, proofs, or PMS color matches
- Pre-production proofs available (adds 5–10 business days)
- Rush production available for additional fee
- No product returns after artwork approval

Apparel Sizes & Colors

T-shirts, hoodies, and sweatshirts are available from Station 3 in a full range of sizes and colors:

- **Sizes:** Youth XS through Adult 5XL (varies by style)
- **Colors:** Full catalog of colors available — request specific Pantone matches for brand consistency (Firebrick Red, Warm Cream, Gold)
- **Decoration:** Screen print for bulk orders, embroidery for premium items, custom imprinting for accessories

Shipping & Point of Sale

- **Local pickup:** Available at 1316 NE Hwy 101, Lincoln City, OR
- **National shipping:** Ships anywhere in the US (freight charges based on order size/weight)
- **Event inventory:** Order in bulk for PetSmart adoption events, craft fairs, and community events
- **Online store fulfillment:** Can fulfill individual orders shipped directly to customers

Recommended first order:

Start with 50 Classic Logo Tees (mix of sizes S–2XL in Firebrick Red and White), 100 paw print stickers, and 50 tote bags for the next PetSmart Adoption Day. Contact Station 3 at 541-996-8115 or Station3Emb@gmail.com for a custom quote.

How It Connects to the Website

The online shop on the website currently uses AI-generated product mockups. Once real merchandise is ordered from Station 3:

1. Photograph actual products for the website (replaces mockups)
2. Update shop pricing to match actual cost + markup
3. Add "Ships from Oregon" badge for local appeal
4. List available sizes and colors from Station 3's inventory
5. Orders placed on the website generate an email; fulfillment ships from Station 3 or from local inventory

SECTION 16

Platform Recommendation

OPTION	ANNUAL COST	PROS	CONS
Stay on Wix	\$204–\$404/yr	Familiar editor, no migration needed	Limited flexibility, locked to platform, hard to migrate later, poor Lighthouse scores
WordPress + Kinsta (Recommended)	\$435–\$640/yr	Easy visual editor, full flexibility, portable, managed hosting with daily backups, 43% of all websites use it	Slightly higher cost, requires occasional updates
GitHub Pages (Current Prototype)	\$15–\$20/yr	Fastest performance, cheapest option, no hosting fees	Requires coding to update, no visual editor

Recommendation: WordPress + Kinsta

A visual dashboard anyone can use (similar to Microsoft Word), managed hosting with daily backups, and if Kinsta doesn't work out, WordPress sites can move to any other host. You're never locked in.

The design and development work is being done

pro bono

— the only ongoing costs are hosting (~\$35/mo) and domain renewal (~\$15/yr).

SECTION 17

Next Steps & Timeline

Transition Timeline: 1–2 Weeks

STEP	ACTION
1	Board reviews prototype and submits feedback
2	Feedback combined into one revision list
3	Design revisions made and approved
4	Kinsta account created in organization's name
5	Convert HTML prototype to WordPress
6	Add final photos, products, donation settings
7	Test on desktop, tablet, mobile + all forms/payments
8	Training session for content editors
9	Connect domain and launch (zero downtime)
10	Document editing responsibilities & schedules

Board Decisions Needed

1. **Platform:** Approve WordPress + Kinsta?
2. **Design:** Approve direction? Changes needed?
3. **Shop:** Sell products? Which ones? Order from Station 3?
4. **Donations:** Accept online? Recurring option?
5. **Newsletter:** Start email list?
6. **Analytics:** Install Google Analytics?
7. **Admin:** Primary + backup site administrators?
8. **Legal:** Privacy policy? Domain ownership?
9. **Content:** Who updates cat profiles?
10. **Social:** Which platforms to link?

What Each Board Member Should Do Now

1. Visit the prototype on your phone and computer: **luckygoats33.github.io/cats-meow-rescue**
2. Browse every page: Home, Shop, Blog, FAQ, About
3. Try the personality quiz
4. Filter the adoptable cats
5. Add an item to the cart
6. Search for something (Ctrl+K or tap the search icon)
7. Submit feedback on design, content, and features
8. Vote on the 10 decisions listed above

The complete 31-section written brief

has additional details: full technical comparisons, cost breakdowns, 24-feature inventory, 25+ board Q&A with recommended answers, materials checklist, risk management plan, and the 10-phase transition plan.
